

## **Director General, Monitoring and Assessment**

Scott Heald Head of Statistics Information Services Division, NHS National Services Scotland Area 122A Gyle Square 1 South Gyle Crescent Edinburgh EH12 9EB

17 June 2014

Dear Scott

## ASSESSMENT OF STATISTICS ON DENTAL AND OPHTHALMIC SERVICES AND GENERAL PRACTICE IN SCOTLAND

Thank you for the correspondence outlining the actions that have been taken to address the requirements for a further three outputs in Assessment report number 209 on Statistics on Dental and Ophthalmic Services and General Practice in Scotland relating to:

- NHS General Dental Service Registrations
- NHS Fees and NHS GDS Treatments
- General Ophthalmic Services Statistics

On behalf of the Board of the Statistics Authority, the Assessment Committee has reviewed these on the advice of the Assessment team and I am pleased to confirm the designation of the outputs as National Statistics.

The Assessment report also covered a further output, the confirmation of designation of which is subject to the Information Services Division, NHS National Services Scotland implementing the enhancements listed in section 1.5 of the report.

It is a requirement of the Statistics and Registration Service Act 2007 that compliance with the Code of Practice must be maintained. We would invite you to incorporate the attached text in publications containing the statistics. This text may only be used where National Statistics designation has been awarded following an Assessment Report. It is intended to convey a strong and independent endorsement for the statistical publication.

Please feel free to discuss any aspect of this with us at any time. I am copying this letter to Jil Matheson, the National Statistician, and to Nicola Rigglesford and Catherine Thomson.

Yours sincerely

Bl Hufern

Ed Humpherson

## Text that may only be used in publications that carry the National Statistics logo following assessment and designation:

The UK Statistics Authority has designated these statistics as National Statistics, in accordance with the Statistics and Registration Service Act 2007 and signifying compliance with the Code of Practice for Official Statistics.

Designation can be broadly interpreted to mean that the statistics:

- meet identified user needs;
- are well explained and readily accessible;
- are produced according to sound methods; and
- are managed impartially and objectively in the public interest.

Once statistics have been designated as National Statistics it is a statutory requirement that the Code of Practice shall continue to be observed.
