Dear John

**ASSESSMENT OF STATISTICS ON LABOUR MARKET**

Thank you for the correspondence outlining the actions that have been taken to address the requirements in Assessment Report number 273 on Labour Market Statistics relating to:

- Regional Labour Market Statistics
- Civil Service Statistics
- Public Sector Employment
- Working and Workless Households
- Workless Households for Regions
- Young People Not in Education, Employment or Training (NEET)

On behalf of the Board of the Statistics Authority, the Regulation Committee has reviewed these on the advice of the Assessment team and I am pleased to confirm the designation of the outputs as National Statistics. The Regulation Committee acknowledges the efforts of the team involved in the assessment process to introduce a range of improvements to its statistical reports and supporting documentation. In particular, we welcome the team's positive response to the Assessment team's feedback and the constructive way in which has sought to improve the clarity and breadth of the narrative and statistical presentation.

I would like to particularly commend you on the development of the NEET statistics which have provided a clearer insight into the differences over time between different groups of young people, whether by sex, ethnicity or employment status. This development shows the team's willingness to ensure that they improve the statistics on a continuous basis, so that they provide better insight into features of society that are of interest and value to users.

It is a requirement of the Statistics and Registration Service Act 2007 that compliance with the Code of Practice must be maintained. We would invite you to incorporate the attached text in publications containing the statistics. This text may only be used where National Statistics designation has been awarded following an Assessment Report. It is intended to convey a strong and independent endorsement for the statistical publication.

Please feel free to discuss any aspect of this with us at any time. I am copying this letter to Mike Prestwood and to David Freeman.

Yours sincerely

Ed Humpherson

**Text that may only be used in publications that carry the National Statistics logo following assessment and designation:**

The UK Statistics Authority has designated these statistics as National Statistics, in accordance with the Statistics and Registration Service Act 2007 and signifying compliance with the Code of Practice for Official Statistics.

Designation can be broadly interpreted to mean that the statistics:

- meet identified user needs;
- are well explained and readily accessible;
- are produced according to sound methods; and
- are managed impartially and objectively in the public interest.

Once statistics have been designated as National Statistics it is a statutory requirement that the Code of Practice shall continue to be observed.
