Dear Tom

ASSESSMENT OF STATISTICS ON PUBLIC SECTOR EXPENDITURE

Thank you for the correspondence outlining the actions that have been taken to address the requirements for the remaining one of the three outputs in Assessment Report number 145 on Statistics on Public Sector Expenditure:

- *UK Official Holdings of International Reserves*

On behalf of the Board of the Statistics Authority, the Assessment Committee has reviewed this on the advice of the Assessment team and I am pleased to confirm the designation of the outputs as National Statistics.

It is a requirement of the Statistics and Registration Service Act 2007 that the Code of Practice must continue to be complied with in relation to the statistics. We would invite you to incorporate the attached text in publications containing the statistics. This text may only be used where National Statistics designation has been awarded following an Assessment Report. It is intended to convey a strong and independent endorsement for the statistical publication.

Please feel free to discuss any aspect of this with us at any time. I am copying this letter to Jil Matheson, the National Statistician.

Yours sincerely

Richard Alldritt
Director General, Monitoring and Assessment

Text that may only be used in publications that carry the National Statistics logo following assessment and designation:

The United Kingdom Statistics Authority has designated these statistics as National Statistics, in accordance with the Statistics and Registration Service Act 2007 and signifying compliance with the Code of Practice for Official Statistics.

Designation can be broadly interpreted to mean that the statistics:

- meet identified user needs;
- are well explained and readily accessible;
- are produced according to sound methods; and
- are managed impartially and objectively in the public interest.

Once statistics have been designated as National Statistics it is a statutory requirement that the Code of Practice shall continue to be observed.
