Dear Caron

ASSESSMENT OF STATISTICS ON UK BUSINESS INVESTMENT AND CAPITAL STOCKS

Thank you for the correspondence outlining the actions that have been taken to address the requirements for the remaining output in Assessment Report number 234 Statistics on UK Business Investment and Capital Stocks produced by the Office for National Statistics relating to:

- *Capital Stocks, Consumption of Fixed Capital*

We welcome the reinstatement of these statistics and the plans to bring them back in line with the National Accounts from the autumn. On behalf of the Board of the Statistics Authority, the Assessment Committee has reviewed these on the advice of the Assessment team and I am pleased to confirm the designation of the outputs as National Statistics.

It is a requirement of the Statistics and Registration Service Act 2007 that compliance with the Code of Practice must be maintained. We would invite you to incorporate the attached text in publications containing the statistics. This text may only be used where National Statistics designation has been awarded following an Assessment Report. It is intended to convey a strong and independent endorsement for the statistical publication.

Please feel free to discuss any aspect of this with us at any time. I am copying this letter to John Pullinger, the National Statistician, and to David Matthews.

Yours sincerely

Ed Humpherson

Text that may only be used in publications that carry the National Statistics logo following assessment and designation:

The UK Statistics Authority has designated these statistics as National Statistics, in accordance with the Statistics and Registration Service Act 2007 and signifying compliance with the Code of Practice for Official Statistics.

Designation can be broadly interpreted to mean that the statistics:

- meet identified user needs;
- are well explained and readily accessible;
- are produced according to sound methods; and
- are managed impartially and objectively in the public interest.

Once statistics have been designated as National Statistics it is a statutory requirement that the Code of Practice shall continue to be observed.
