1 November 2012

Dear Siobhan

**ASSESSMENT OF NATIONAL STATISTICS**

Thank you for the correspondence outlining the actions that have been taken to address the requirements in the following Assessment Reports (ARs):

AR 95: Statistics on Construction Price and Cost Indices  
AR169: Statistics on Regional Economic Performance

The Board of the Statistics Authority has reviewed these on the advice of the Assessment team and I am pleased to confirm that the Construction Price and Cost Indices can be re-designated as National Statistics. I am also pleased to confirm the designation of the statistics on Regional Economic Performance as National Statistics.

It is a requirement of the Statistics and Registration Service Act 2007 that the Code of Practice must continue to be complied with in relation to the statistics. We would invite you to incorporate the attached text in publications containing the statistics. This text may only be used where National Statistics designation has been awarded following an Assessment Report. It is intended to convey a strong and independent endorsement for the statistical publication.

Please feel free to discuss any aspect of this with us at any time. I am copying this letter to Jill Matheson, the National Statistician, and Frances Pottier, Keith Folwell and Steve Dempsey.

Yours sincerely

Richard Alldritt

**Text that may only be used in publications that carry the National Statistics logo following assessment and designation:**

The United Kingdom Statistics Authority has designated these statistics as National Statistics, in accordance with the Statistics and Registration Service Act 2007 and signifying compliance with the Code of Practice for Official Statistics.

Designation can be broadly interpreted to mean that the statistics:

- meet identified user needs;
- are well explained and readily accessible;
- are produced according to sound methods, and
- are managed impartially and objectively in the public interest.

Once statistics have been designated as National Statistics it is a statutory requirement that the Code of Practice shall continue to be observed.
