

NATIONAL STATISTICIAN'S COMMITTEE FOR ADVICE ON STANDARDS FOR ECONOMIC STATISTICS

NSCASE(23)08

Proposed approach to papers for review, *December 2022*

In a Secretariat meeting with the research team in November, it was raised that papers that need come back to the committee for review may reduce the discussion time on other issues that are planned in the year's agenda. As NSCASE meetings run for four hours, the Secretariat agreed that meetings should not be extend length due to the need for travel.

The Secretariat propose that in the case of multiple papers required for a second review, an additional meeting should be held to specifically discuss papers for review. This would be held virtually. It will be assessed on a case-by-case basis whether an additional meeting will need to take place. Committee members will be paid for their time at this meeting.
