UK Statistics Authority Resource Accounts Year ending 31 March 2009

Dame Karen Dunnell DCB

Statement of Accounting Officer's Responsibilities

Under the *Government Resources and Accounts Act 2000*, HM Treasury (HMT) has directed the UK Statistics Authority to prepare, for each financial year, resource accounts detailing the resources acquired, held or disposed of during the year and the use of resources by the department during the year.

The accounts are prepared on an accruals basis and must give a true and fair view of the state of affairs of the department and of its net resource outturn, resources applied to objectives, recognised gains and losses and cash flows for the financial year.

In preparing the accounts, the principal Accounting Officer is required to comply with the requirements of the *Government Financial Reporting Manual* and in particular to:

- observe the Accounts Direction issued by HMT, including the relevant accounting and disclosure requirements, and apply suitable accounting policies on a consistent basis
- make judgements and estimates on a reasonable basis

- state whether applicable accounting standards as set out in the *Government Financial Reporting Manual* have been followed, and disclose and explain any material departures in the accounts
- prepare the accounts on a going concern basis

HMT has appointed the Permanent Head of the Department as principal Accounting Officer of the department.

The responsibilities of an Accounting Officer, including responsibility for the propriety and regularity of the public finances for which the Accounting Officer is answerable, for keeping proper records and for safeguarding the UK Statistics Authority's assets, are set out in the *Accounting Officers' Memorandum* published in *Managing Public Money*.

Statement on Internal Control

Scope of Responsibility

As Accounting Officer, I have responsibility for maintaining a sound system of internal control that supports the achievement of the UK Statistics Authority's policies, aims and objectives, while safeguarding the public funds

and departmental assets for which I am personally responsible, in accordance with the responsibilities assigned to me in *Managing Public Money*.

I discuss risk regularly with the Chair of the Authority, in addition to the more formal boards and committees outlined below.

In addition my finance and planning team, led by my Chief Finance Officer, have monthly meetings with our spending team at HMT.

The Purpose of the System of Internal Control

The system of internal control is designed to manage risk to a reasonable level rather than to eliminate all risk of failure to achieve policies, aims and objectives; it can therefore only provide reasonable and not absolute assurance of effectiveness.

The system of internal control is based on an ongoing process designed to identify and prioritise the risks to the achievement of departmental policies, aims and objectives, to evaluate the likelihood of those risks being realised and the impact should they be realised and to manage them efficiently, effectively and economically.

The system of internal control has been in place in the UK Statistics Authority for the year ended 31 March 2009 and up to the date of approval of the *Annual Report and Resource Accounts*, and accords with HMT guidance.

Capacity to Handle Risk

The committee structure has evolved during the year as described elsewhere in this report. Overall strategic direction is given by the Authority Board which meets monthly, with the Office for National Statistics (ONS) Board, also meeting monthly, overseeing the ONS. Both comprise executive and non-executive directors.

The UK Statistics Authority has established an Audit Committee that took over the work of the former Audit Committee of ONS.

It supports the Authority and the Accounting Officer in their responsibilities for issues of risk management, control and governance. It does this by reviewing the comprehensiveness, reliability and integrity of assurances given by staff and contractors in meeting the needs of the Authority and the Accounting Officer. The Audit Committee acts in a scrutiny and advisory capacity and has no executive authority.

“ The system of internal control is based on an ongoing process designed to identify and prioritise the risks to the achievement of departmental policies, aims and objectives ”

The Chair and members of the Audit Committee are non-executive members of the UK Statistics Authority or other non-executive persons appointed by the Board of the UK Statistics Authority. I attend the Audit Committee in my role as Accounting Officer. Also attending are external and internal audit and other senior managers as required.

The Audit Committee consider and approve the UK Statistics Authority's Audit Strategy and Plan and advise the UK Statistics Authority and Accounting Officer on the strategic processes for risk, control and governance, the results of both internal and external audit, adequacy of management response to issues identified by audit activity, anti-fraud and corruption policies, whistle-blowing processes and arrangements for special investigations.

At its meeting in July 2008, the UK Statistics Authority Board had a wide-ranging and full discussion of the risks that the UK Statistics Authority faced and confirmed its decision to establish a Risk Committee.

The Risk Committee met on two occasions in 2008 and its work has been primarily looking at risks arising from the UK Statistics Authority's wider remit and in looking at generic mitigation

strategies. At its meeting on 20 March 2009 the Authority Board agreed that the Audit Committee should assume the responsibilities of the Risk Committee.

The Audit Committee considered its wider remit at its meeting on 23 May 2009. The monitoring of the management of ONS operational risks is the responsibility of the ONS Board.

Risk was also considered at the Executive Management Group (EMG) of ONS and in its place from January 2009, by the Executive Committee (EC), both chaired by me, and consisting of senior directors, and other committees as appropriate.

The ONS Board and the EMG and EC receive monthly portfolio reports that cover key performance metrics, and current corporate risks.

The Risk and Control Framework

The overall risk appetite is low and the UK Statistics Authority seeks to minimise risk arising from its operations. We have developed a culture of risk management over a period of several years that recognises that risk and issue management is an integral part of good management practice, supporting and informing, among other things, planning, prioritisation and benefits management.

It calls for judgement and common sense as well as an awareness of the external environment. It is particularly important in a time of innovation, where in order to maximise benefits and opportunities, it may be necessary to take managed risks.

The Risk Management Unit works with the rest of the organisation to ensure this culture is recognised and embedded within each directorate. A *Risk & Issue Management Agreement* (RIMA) has been implemented to define key roles and responsibilities and the proforma is agreed between the Risk Unit and the head of Directorate.

In addition, the following have been developed to further standardise the way risk management is carried out in the office:

- A risk scoring matrix based on both the HMT '*Orange Book*' and the Institute of Risk Managers' '*Risk Management Standard*'
- A risk database (a bespoke Lotus Notes database was developed and is a mandatory requirement throughout ONS)
- A monthly corporate risk report

The Risk Management Unit provides one-to-one guidance and an enhanced framework to help owners classify

their risks and delivers 'light touch' training to all new ONS staff via an E-Learning presentation, to develop an understanding and awareness of Risk Management.

Detailed training is provided in the form of workshops to senior staff and staff with specific responsibilities for managing risks, equipping them with the necessary skills.

In addition to traditional risk management as described above, I have put in place particular arrangements on risk management surrounding information security. The report *Data Handling Procedures in Government* sets out a new governance arrangement for information risk management with the introduction of Information Asset Owners (IAOs) who have responsibility for data handling and exploitation for Information Assets across Government.

The Information Exploitation and Assurance Committee will meet quarterly and brings together the IAOs across ONS, to ensure a consistent approach to managing information and to place the exploitation of information and the way it is handled at the centre of all decision making processes.

“ The Gateway Review focused on the work covering delivery, collection and follow up of Census questionnaires ”

I formally send Directors General reporting to me a delegation letter for budgets delegated to them and they in turn send similar delegation letters to Directors and Deputy Directors. In addition, controls are in place within Atlas, our financial software system, to ensure that procurements are appropriately authorised. Where, on a small number of occasions, projects and procurements exceed my delegation limits these are referred to the Spending Team at HMT for approval.

Significant Management and Control Issues for 2008/09

During the year we continued to plan the 2011 Census and have therefore kept under detailed scrutiny, the risks that this entails. Because of the importance of the Census it is also subject to Office of Government Commerce (OGC) Gateway Reviews.

We reported last year on the May 2008 Gateway that gave the programme an amber status.

In January 2009 the Census programme received an overall assessment of amber/green following a further Gateway Review. The Gateway Review focused on the work covering delivery, collection and follow up of Census questionnaires.

The recruitment, pay and training procurement, which directly supports these activities, was reviewed in detail. A contract for these services was agreed in March 2009.

We have followed up on the work reported last year on data security and compliance is now managed by the Information Exploitation and Assurance Committee who assessed compliance with the minimum mandatory measures set out by the Cabinet Office and reviewed the risks to data security.

In 2007/08 we announced a decision to outsource some of our Information Management function as part of a shared service with the Cabinet Office. The contract was awarded to Fujitsu and the work on this continues.

This year saw the creation of the UK Statistics Authority and the launch of the Publication Hub.

ONS has continued to progress changes to its systems and outputs and this year has prioritised modernisation of National Accounts. We have also, as reported elsewhere, commenced work with other government departments on improving population and migration statistics.

In common with the other major projects and programmes above, the risk issues on these are embedded using the process described and reported monthly via the portfolio reports.

The work of internal audit this year has looked at a number of areas. Where formal opinions were made, the following areas were found to be satisfactory:

- Controls over the Balance Sheet
- Payroll Audit (conducted by external reviewers on behalf of the 64 government users of payroll services provided by our contractor Logica CMG)
- Virtual Micro Data Laboratory

In the following areas the opinion provided was 'Improvement Required', defined as 'there are weaknesses in control that either individually or taken together could have an adverse impact on achievement of objectives':

- Expenditure and Food Survey
- Migration Statistics Improvement Programme
- Social Surveys
- National Accounts

Where concerns were raised, the director of the area under review has agreed with the audit recommendations and has set

out in the management response who will be responsible for addressing the issues with agreed deadlines.

Last year we reported the assessment of what were considered corporate risks and in February 2009 this was reviewed by the Corporate Strategy Steering Group and then agreed by the Executive Committee, with the result that the current corporate risks are as follows:

- Reputation – failure to manage delivery effectively with resulting loss in reputation
- Funding – living within current budgets
- Disaster Recovery
- Delivery of the key output of National Accounts
- Delivery of the key outputs in the 2011 Census
- Delivery of key outputs on Migration
- Information Handling
- Funding – sufficient funding to deliver commitments
- Changes in Government Finances and their effect on outputs
- First Release publication delays

“ ONS has continued to progress changes to its systems and outputs and this year has prioritised modernisation of National Accounts ”

Review of Effectiveness

As Accounting Officer, I have responsibility for reviewing the effectiveness of the system of internal control. My review of the effectiveness of the system of internal control is informed by the work of the internal auditors and the executive managers within the Authority who have responsibility for the development and maintenance of the internal control framework and comments made by the external auditors in their management letter and other reports.

I have been advised on the implications of the result of my review of the effectiveness of the system of internal control by the board, the Audit Committee and Risk Committee, the Strategic Reporting and Delivery Unit and the Risk Management Unit and a plan to address weaknesses and ensure continuous improvement of the system is in place.

The Audit Committee is constituted in line with HMT guidance and internal audit continues to be outsourced to Companies House. Internal Audit presented a risk based audit strategy for 2008/09 to the July 2008 meeting of the Audit Committee, where this was agreed and monitored at subsequent meetings.

The Audit Committee have reviewed the effectiveness of assurances from internal

audit reports, the Head of Internal Audit's annual assurance statement and the work of the National Audit Office, through their management letter and other reports. The Chair of the Audit Committee, in accordance with *'The Audit Committee Handbook'* (HM Treasury 2008) presented his Annual Report for 2008/09.

In it he stated that in their view currently only limited assurance concerning the sufficiency of the control environment can be taken, as although the Committee has been assured that strategies are in place to deliver improvements in the medium-term, the Committee has not received sufficient assurance that these risks can be eliminated or mitigated sufficiently in the short-term.

I have reviewed this evidence of the effectiveness of the system of internal control and I am satisfied that the risks as set out here have been correctly identified and that actions are in place to monitor and address these risks and any audit findings.

Dame Karen Dunnell DCB
Accounting Officer,
UK Statistics Authority
10 July 2009

Remuneration Report

Service Contracts

The process for appointing the non-executive members of the UK Statistics Authority is described in Chapter 1, page 12 (Volume 1).

Civil service appointments are made in accordance with the Civil Service Commissioners' Recruitment Code, which requires appointment to be on merit on the basis of fair and open competition but also includes the circumstances when appointments may otherwise be made.

Further information about the work of the Civil Service Commissioners can be found at: www.civilservicecommissioners.gov.uk

All non-executive members of the UK Statistics Authority are on fixed term contracts, the dates of which are given in Table 6.2.

Contracts state that where a member's appointment ends early (ie terminates otherwise than on the expiry of the term of office), and it appears to the Minister for the Cabinet Office that there are circumstances which make it right for him/her to receive compensation, the Board may pay compensation of an amount approved by the Minister for the Cabinet Office.

There is no automatic right to compensation.

Unless otherwise stated, all others covered by this report hold appointments which are open-ended. Early termination, other than for misconduct, would result in the individual receiving compensation as set out in the Civil Service Compensation Scheme.

Salary and Pension Entitlements

The following sections provide details of the remuneration and pension interest of the senior directors and non-executive members of the UK Statistics Authority. These disclosures have been subject to audit.

Remuneration

Table 6.1 – Remuneration of Executive Directors of the UK Statistics Authority and the Office for National Statistics

Executive Directors	2008/09	2007/08
Name and Title	Salary £000	Salary £000
Dame Karen Dunnell DCB National Statistician (ONS)	150-155	145-150
Ms Rolande Anderson Director General for Transformation (ONS)	135-140	0-5 (full year equivalent 120 -125)
Ms Jil Matheson Director General for Statistics Delivery (ONS)	135-140	115-120
Mr Richard Alldritt Head of Assessment (UK Statistics Authority) Appointed 6 May 2008	110-115	N/A
Mr Steve Newman Chief Financial Officer (ONS)	120-125	115-120
Mr Paul Woobey Chief Information Officer (ONS)	150-155	70-75 (full year equivalent 125-130)

Table 6.2 – Remuneration, Non-executive Directors (UK Statistics Authority)

Non-executive Members	2008/09	2007/08
Name and Title	Salary £000	Salary £000
Sir Michael Scholar Chair of UK Statistics Authority Fixed contract: 01.09.07 to 31.08.11	150-155	85-90 (full year equivalent 150-155)
Professor Sir Roger Jowell Deputy Chair (Statistics System) Appointed: 11 November 2008 Fixed contract: 11.11.08 to 31.01.11	10-15 (full year equivalent 35-40)	N/A
Lord David Rowe-Beddoe of Kilgetty Deputy Chair (ONS) Fixed contract: 01.02.08 to 31.01.10	35-40	5-10 (full year equivalent 35-40)
Professor Adrian Smith Deputy Chair (Statistics System) Resigned 1 September 2008	10-15	5-10 (full year equivalent 35-40)
Mr Partha Dasgupta Non-executive Fixed contract: 01.02.08 to 31.01.11	20-25	1-5 (full year equivalent 20-25)
Ms Moira Gibb Non-executive Fixed contract: 01.02.08 to 31.01.11	20-25 (see note below)	1-5 (full year equivalent 20-25)
Professor David Rhind Non-executive Fixed contract: 01.02.08 to 31.01.10	20-25	1-5 (full year equivalent 20-25)
Professor Steve Nickell Non-executive Fixed contract: 01.02.08 to 31.01.11	20-25	1-5 (full year equivalent 20-25)
Sir Alan Langlands Non-executive Fixed contract: 01.02.08 to 31.01.10	20-25	1-5 (full year equivalent 20-25)

Note

The salary costs for Ms Moira Gibb were invoiced by and paid to the London Borough of Camden.

Salary

Non-executive directors are paid a fee plus expenses and have no pension entitlement.

‘Salary’ includes gross salary, performance pay or bonuses, overtime, reserved rights to London weighting or London allowances, recruitment and retention allowances, private office allowances and any other allowance to the extent that it is subject to UK taxation.

The Remuneration Committee concluded the pay arrangements, with the support of Human Resources, for the UK Statistics Authority senior executive directors. The committee consists of:

- Chair – Lord David Rowe-Beddoe of Kilgetty
- Dame Karen Dunnell DCB
- Sir Alan Langlands FRSE
- Sir Michael Scholar KCB

The UK Statistics Authority Senior Civil Service (SCS) salary arrangements follow the guidance set by Cabinet Office in response to the Senior Salaries Review Body. SCS Pay is made up of two elements – a consolidated increase to Base Pay and a non-consolidated bonus payment.

Both elements are performance related – whether they are payable and the value of them is determined by an individual’s performance in the previous appraisal year.

This Report is based on payments made by the Department and thus recorded in these accounts.

Benefits in Kind

None of the above received benefits in kind.

Pension Benefits

Table 6.3 – Pension Benefits, Senior Directors

Senior Directors	Real increase in pension and related lump sum at age 60	Accrued pension at age 60 as at 31/03/09 and related lump sum	Cash Equivalent Transfer Value at 31/03/08	Cash Equivalent Transfer Value at 31/03/09	Real Increase in Cash Equivalent Transfer Value
	£000	£000	£000	£000	£000
Dame Karen Dunnell DCB National Statistician (ONS)	0-2.5 Plus 0-2.5 lump sum	65-70 Plus 190-200 lump sum	1,427	1,478	3
Ms Rolande Anderson Director General for Transformation (ONS)	2.5-5.0 Plus 12.5-15.0 lump sum	45-50 Plus 130-135 lump sum	786	936	87
Ms Jil Matheson Director General for Statistics Delivery (ONS)	2.5-5.0 Plus 10.0-12.5 lump sum	45-50 Plus 145-150 lump sum	882	1,037	75
Mr Richard Alldritt Head of Assessment (UK Statistics Authority) Appointed 6 May 2008	15-20 Premium Pension Scheme	55-60	705	1,018	244
Mr Steve Newman Chief Financial Officer (ONS)	0-2.5 Premium Pension Scheme	5-10	84	122	27
Mr Paul Woobey Chief Information Officer (ONS)	2.5-5.0 Nuvos Pension Scheme	0 -5	21	58	31

Note

The People, Pay and Pensions Agency (PPPA) updated the factors used in calculating Cash Equivalent Transfer Values (CETVs) in October 2008. As a result of this the opening CETVs of the 2008/09 calculations is likely to be different to the closing CETVs from 2007/08 calculations.

The posts held by the non-executive members of the UK Statistics Authority are non-pensionable.

Civil Service Pensions

Pension benefits are provided through the Civil Service pension arrangements. From 30 July 2007, civil servants may be in one of four defined benefit schemes; either a 'final salary' scheme (Classic, Premium or Classic Plus); or a 'whole career' scheme (Nuvos).

These statutory arrangements are unfunded with the cost of benefits met by monies voted by Parliament each year. Pensions payable under Classic, Premium, Classic Plus and Nuvos are increased annually in line with changes in the Retail Prices Index (RPI). Members joining from October 2002 may opt for either the appropriate defined benefit arrangement or a good quality 'money purchase' stakeholder pension with a significant employer contribution (partnership pension account).

Employee contributions are set at the rate of 1.5 per cent of pensionable earnings for Classic and 3.5 per cent for Premium, Classic Plus and Nuvos. Benefits in Classic accrue at the rate of 1/80th of final pensionable earnings for each year of service. In addition, a lump sum equivalent to three years' pension is payable on retirement. For Premium, benefits accrue at the rate of 1/60th of final pensionable earnings for each year of service.

Unlike Classic, there is no automatic lump sum. Classic Plus is essentially a hybrid with benefits in respect of service before 1 October 2002 calculated broadly as per Classic and benefits for service from October 2002 calculated as in premium. In Nuvos a member builds up a pension based on his or her pensionable earnings during their period of scheme membership.

At the end of the scheme year (31 March) the member's earned pension account is credited with 2.3 per cent of their pensionable earnings in that scheme year and the accrued pension is up-rated in line with RPI. In all cases members may opt to give up (commute) pension for lump sum up to the limits set by the *Finance Act 2004*.

The partnership pension account is a stakeholder pension arrangement. The employer makes a basic contribution of between 3 per cent and 12.5 per cent (depending on the age of the member) into a stakeholder pension product chosen by the employee from a panel of three providers. The employee does not have to contribute but where they do make contributions, the employer will match these up to a limit of 3 per cent of pensionable salary (in addition to the employer's basic contribution).

Employers also contribute a further 0.8 per cent of pensionable salary to cover the cost of centrally-provided risk benefit cover (death in service and ill health retirement).

The accrued pension quoted is the pension the member is entitled to receive when they reach pension age, or immediately on ceasing to be an active member of the scheme if they are already at or over pension age. Pension age is 60 for members of Classic, Premium and Classic Plus and 65 for members of Nuvos.

Further details about the Civil Service pension arrangements can be found at the website: www.civilservice-pensions.gov.uk

Cash Equivalent Transfer Values

A Cash Equivalent Transfer Value (CETV) is the actuarially assessed capitalised value of the pension scheme benefits accrued by a member at a particular point in time. The benefits valued are the member's accrued benefits and any contingent spouse's pension payable from the scheme. A CETV is a payment made by a pension scheme or arrangement to secure pension benefits in another pension scheme or arrangement when the member leaves a scheme and chooses to transfer the benefits accrued in their former scheme. The pension figures

shown relate to the benefits that the individual has accrued as a consequence of their total membership of the pension scheme, not just their service in a senior capacity to which disclosure applies. The figures include the value of any pension benefit in another scheme or arrangement which the individual has transferred to the Civil Service pension arrangements. They also include any additional pension benefit accrued to the member as a result of their buying additional pension benefits at their own cost. CETVs are calculated in accordance with The Occupational Pension.

Real increase in CETV

This reflects the increase in CETV effectively funded by the employer. It does not include the increase in accrued pension due to inflation, contributions paid by the employee (including the value of any benefits transferred from another pension scheme or arrangement) and uses common market valuation factors for the start and end of the period.

Dame Karen Dunnell DCB
Accounting Officer,
UK Statistics Authority
10 July 2009

The Certificate and Report of the Comptroller and Auditor General to the House of Commons

I certify that I have audited the financial statements of the UK Statistics Authority for the year ended 31 March 2009 under the *Government Resources and Accounts Act 2000*. These comprise the Statement of Parliamentary Supply, the Operating Cost Statement and Statement of Recognised Gains and Losses, the Balance Sheet, the Cash Flow Statement and the Statement of Net Operating Costs by Departmental Strategic Objectives and the related notes. These financial statements have been prepared under the accounting policies set out within them. I have also audited the information in the Remuneration Report that is described in that report as having been audited.

Respective Responsibilities of the Accounting Officer and Auditor

The Accounting Officer is responsible for preparing the Annual Report, which includes the Remuneration Report, and the financial statements in accordance with the *Government Resources and Accounts Act 2000* and HM Treasury directions made thereunder and for ensuring the regularity of financial transactions. These responsibilities are set out in the Statement of Accounting Officer's Responsibilities.

My responsibility is to audit the financial statements and the part of

the Remuneration Report to be audited in accordance with relevant legal and regulatory requirements, and with International Standards on Auditing (UK and Ireland).

I report to you my opinion as to whether the financial statements give a true and fair view and whether the financial statements and the part of the Remuneration Report to be audited have been properly prepared in accordance with HM Treasury directions issued under the *Government Resources and Accounts Act 2000*. I report to you whether, in my opinion, the information which comprises Chapter 1 and Chapter 5, excluding the core tables, included in the Annual Report, is consistent with the financial statements. I also report whether in all material respects the expenditure and income have been applied to the purposes intended by Parliament and the financial transactions conform to the authorities which govern them.

In addition, I report to you if the Department has not kept proper accounting records, if I have not received all the information and explanations I require for my audit, or if information specified by HM Treasury regarding remuneration and other transactions is not disclosed.

I review whether the Statement on Internal Control reflects the Department's compliance with HM Treasury's guidance, and I report if it does not. I am not required to consider whether this statement covers all risks and controls, or to form an opinion on the effectiveness of the Department's corporate governance procedures or its risk and control procedures.

I read the other information contained in the Annual Report and consider whether it is consistent with the audited financial statements. This other information comprises Chapters 2, 3 and 4 and the un-audited part of the Remuneration Report. I consider the implications for my certificate if I become aware of any apparent misstatements or material inconsistencies with the financial statements. My responsibilities do not extend to any other information.

Basis of Audit Opinions

I conducted my audit in accordance with International Standards on Auditing (UK and Ireland) issued by the Auditing Practices Board. My audit includes examination, on a test basis, of evidence relevant to the amounts, disclosures and regularity of financial transactions included in the financial statements and the part of the Remuneration Report to be audited. It also includes an assessment of the significant estimates and judgments made by the Accounting Officer in the preparation of the financial statements, and of whether the accounting policies are most appropriate to the Department's circumstances, consistently applied and adequately disclosed.

I planned and performed my audit so as to obtain all the information and explanations which I considered necessary in order to provide me with sufficient evidence to give reasonable assurance that the financial statements and the part of the Remuneration Report to be audited are free from material misstatement, whether caused by fraud or error, and that in all material respects the expenditure and income have been applied to the purposes intended by Parliament and the financial transactions conform to the authorities which govern them. In forming my opinion I also evaluated the overall adequacy of the presentation of information in the financial statements and the part of the Remuneration Report to be audited.

Opinions

In my opinion:

- the financial statements give a true and fair view, in accordance with the Government Resources and Accounts Act 2000 and directions made thereunder by HM Treasury, of the state of the Department's affairs as at 31 March 2009, and the net cash requirement, net resource outturn, net operating cost, net operating costs applied to departmental strategic objectives, recognised gains and losses and cash flows for the year then ended;
- the financial statements and the part of the Remuneration Report to be audited have been properly prepared in accordance with HM Treasury directions issued under the Government Resources and Accounts Act 2000; and

- information which comprises Chapter 1 and Chapter 5, excluding the core tables, included within the Annual Report, is consistent with the financial statements.

Opinion on Regularity

In my opinion, in all material respects, the expenditure and income have been applied to the purposes intended by Parliament and the financial transactions conform to the authorities which govern them.

Report

I have no observations to make on these financial statements.

The notes on pages 27 to 58 form part of these accounts

1. Notes to the Resource Accounts

Statement of Accounting Policies

These financial statements have been prepared in accordance with the 2008/09 *Government Financial Reporting Manual (FReM)* issued by HM Treasury. The accounting policies contained in the *FReM* follow UK generally accepted accounting practice for companies (UK GAAP) to the extent that it is meaningful and appropriate to the public sector.

In addition to the primary statements prepared under UK GAAP, the *FReM* also requires the Department to prepare two additional primary statements. The *Statement of Parliamentary Supply* and supporting notes show outturn against Estimate in terms of the net resource requirement and the net cash requirement. The consolidated *Statement of Operating Cost by Departmental Aim and Objectives* and supporting notes analyse the Department's income and expenditure by the objectives agreed with Ministers.

Where the *FReM* permits a choice of accounting policy, the accounting policy which has been judged to be most appropriate to the particular circumstances of the Department for the purpose of giving a true and fair view has been selected. The Department's accounting policies have been applied consistently in dealing with items considered material in relation to the accounts.

1.1 Accounting Convention

These accounts have been prepared under the historical cost convention modified to account for the revaluation of fixed assets at their value to the business by reference to their current cost.

1.2 Fixed Assets

Tangible fixed assets include freehold land and buildings, computers and associated equipment, vehicles, office machinery, furniture and fittings and in-house developed software applications.

Intangible assets consist of proprietary software.

With the exception of PCs, software and office furniture, individual assets must exceed a capitalisation threshold of £2,000 (including VAT) for inclusion as fixed assets.

PCs, software and office furniture items falling below the threshold (£2,000 including VAT) are capitalised as pooled assets.

The UK Statistics Authority rents accommodation at Drummond Gate and Myddelton Street in London, Lancaster Court in Titchfield and offices at 23 Walker Street in Edinburgh.

Civil Estate property is occupied in Newport, Titchfield and Christchurch. The land and buildings are restated at current cost using professional valuations every five years and appropriate indices in intervening years. The last professional valuation took place in April 2005.

Proprietary software is not re-valued and is depreciated using the straight line method over a period of four years.

All tangible fixed assets and in-house developed software are re-valued from the quarter of acquisition. These assets are stated at current costs by using indices taken from the Authority's publication Price Index Numbers for Current Cost Accounting, with the exception of in-house developed software applications, which use an index developed by our National Accounts Division.

1.3 Statistical Records

Statistical information has built up over many years and is stored for reference purposes. No attempt is normally made to value these data, as there is no realistic way of doing so that would arrive at a meaningful valuation.

The cost of storing and maintaining the data has been charged to the Operating Cost Statement as incurred.

1.4 Depreciation

Civil Estate Land is not depreciated.

Depreciation is calculated so as to write off the re-valued cost of assets over the estimated useful economic life, as follows:

- | | |
|--|---|
| • Computers | 4–7 years |
| • In-house developed software and applications | 9 years |
| • Office machinery, furniture and fittings | 4–10 years |
| • Motor vehicles | 5 years |
| • Building and refurbishment | Remaining life of the lease or, for civil estate, remaining balance of professionally allocated useful economic life. |

The life of each category of each asset is reviewed annually.

Purchased computer software licenses are capitalised as intangible assets. Where the expenditure exceeds the capitalisation threshold of £2,000 (including VAT) assets are listed individually. Licenses below the threshold value are listed as pooled assets. Software licenses are amortised over their useful economic life.

A full year's depreciation is charged in the year of acquisition and none in the year of disposal with the exception of in-house developed software assets and building refurbishments which are treated as follows:

Depreciation is charged as a percentage of the yearly charge as the asset is ready for use.

- Qtr1 100% of the yearly charge
- Qtr2 75% of the yearly charge
- Qtr3 50% of the yearly charge
- Qtr4 25% of the yearly charge

No depreciation is charged in the year of disposal.

1.5 Assets in the Course of Construction

This consists of certain property related refurbishment expenditure and the development of in-house bespoke software applications and incomplete computer configurations. These costs are capitalised on completion and re-valued in accordance with the policies above.

1.6 Research and Development

The Authority undertakes certain research into statistical and survey methodology. Costs are charged to the Operating Cost Statement as they arise.

1.7 Operating Income

Operating income comprises of invoiced value of services supplied to the private sector, the wider public sector and other government Departments. Prices are calculated in accordance with *Managing Public Money* published by the Treasury and aim to recover the full economic cost of their production.

1.8 Leases

The Authority has no financial leases. Rentals due under operating leases are charged to Programme Costs, note 9. Future payments, disclosed in note 22, 'Commitments Under Leases' are not discounted.

1.9 Programme Expenditure

In previous years the UK Statistics Authority's expenditure was classed as administration. As the result of the latest settlement all resource costs have been reclassified as programme expenditure.

1.10 Capital Charge

The financial structure of the Authority does not include specific interest-bearing debt; capital. A charge, reflecting the cost of capital utilised by the Department, is included in operating costs. The charge is calculated at the real rate set by HM Treasury (currently 3.5 per cent) on the average carrying amount of all assets less liabilities.

1.11 Foreign Exchange

The Authority conducts a small number of transactions which are denominated in a foreign currency.

Transactions, other than euros, are translated into sterling at the exchange rate ruling on the date of each transaction.

Assets and liabilities denominated in euros are translated into sterling at the exchange rate ruling at the Balance Sheet date.

1.12 Pensions

Past and present employees are covered by the provisions of the Civil Service Pension Schemes that are described in note 8 and in the Department Remuneration Report. The defined benefit elements of the schemes are unfunded and are non-contributory, except in respect of dependants' benefits. The Department recognises the expected costs of these elements on a systematic and rational basis over a period during which it benefits from employees' services by payment to the Principal Civil Service Pension Schemes (PCSPS) of amounts calculated on an accruing basis. Liability for payment of future benefits is a charge on PCSPS. In respect of the defined contribution elements of the schemes, the Department recognises the contribution payable for the year.

1.13 Early Departure Costs

The Authority meets the responsibility of additional costs of employees who take voluntary early severance or who retire early by paying the amounts required over the period between early departure and normal retirement date. The Authority provides for this in full when the early retirement programme becomes binding by establishing a provision for the estimated payments which are discounted by the HM Treasury discounted rate of 2.2 per cent.

1.14 VAT

Irrecoverable VAT is charged to the relevant expenditure category or included in the capitalised purchase cost of fixed assets. Where output tax is charged or input VAT is recoverable, the amounts are stated net of VAT.

1.15 Provisions

Longer term provisions are discounted at the rate of 2.2 per cent published by HM Treasury and are reviewed each year.

1.16 Contingent Liabilities

Contingent liabilities are disclosed in accordance with FRS 12. The Department discloses for Parliamentary reporting and accounting purposes certain statutory and non-statutory contingent liabilities where the likelihood of a transfer of economic benefit is remote, but which have been reported to Parliament in accordance with the requirements of Managing Public Money.

1.17 Financial Instruments

During the year the Authority implemented Financial Reporting Standards 25, 26 and 29. The cash requirements of the Authority are met through the Estimates process, financial instruments play a more limited role in creating risk than would apply to a non-public sector body of a similar size. The majority of financial instruments relate to contracts to buy non-financial items in line with the Department's expected purchase and usage requirements and the Department is therefore exposed to little credit, liquidity or market risk. The Authority conducts a small amount of transactions in foreign currency but it is not deemed cost effective to hedge against foreign exchange risk.

2. Transfer of Function

For the period commencing 1 April 2008

On 1 April 2008 following the enactment of the *Statistics and Registration Service Act 2007* the General Register Office (GRO) transferred to the Identity and Passport Service, part of the Home Office, and the National Health Service Central Register (NHSCR) transferred to the Information Centre, part of the National Health Service.

The 2007/08 Operating Cost Statement and Balance Sheet figures have been re-stated. The financial statements presented for the UK Statistics Authority do not include GRO and NHSCR figures.

The impact of these changes on the Operating Cost Statement and Balance Sheet is shown below.

Operating Cost Statement

	Reported in 2007/08 ONS Resource Accounts	UK Statistics Authority (re-stated)	Identity and Passport Service & NHS Information Centre
2007/08	£000	£000	£000

3. Analysis of Net Resource Outturn by Section

For the period ended 31 March 2009

							2008/09	2007/08	
Outturn							Estimate		
	Admin £000	Other Current £000	Grants £000	Gross Resource Expenditure £000	A in A £000	Net Total £000	Net Total £000	Net Total outturn compared with Estimate £000	Prior- year outturn
<i>Request for resources 1:Providing statistical and registration services</i>									
Central Government Spending									
Section A: Administration (gross control)	–	–	–	–	–	–	–	–	172,088
<i>Request for resources 1:Providing statistical services</i>									
Central Government Spending									
Section A: Programme (gross control)	–	236,503	–	236,503	(27,175)	209,328	217,065	7,737	–
Resource Outturn	–	236,503	–	236,503	(27,175)	209,328	217,065	7,737	172,088

Note

In previous years the majority of the total ONS budget was administration expenditure with some small element of programme expenditure relating to EU receipts. As the result of the latest settlement all of the UK Statistics Authority's resource costs have been reclassified as programme expenditure.

4. Reconciliation of Outturn to Net Operating Cost Against Programme Budget

For the period ended 31 March 2009

4(a) Reconciliation of Net Resource Outturn to Net Operating Cost

		Outturn	Supply Estimate	2008/09 Outturn compared with Estimate	2007/08 Outturn
		£000	£000	£000	£000
Net Resource Outturn	3	209,328	217,065	7,737	172,088
Prior Period Adjustments		–	–	–	(4,804)
Non-supply Income (CFERs)		(324)	–	324	–
Non-supply Expenditure		–	–	–	–
Net operating cost		209,004	217,065	8,061	167,284

Note

Prior period adjustment of £4,804,000 is a result of the enactment of the *Statistics and Registration Service Act 2007*, refer to Note 2 for further details.

4(b) Outturn Against Final Programme Budget

		Budget	2008/09 Outturn	2007/08 Outturn
		£000	£000	£000
Gross Administration Budget		–	–	219,012
Income allowable against the Administration Budget		–	–	(46,924)
Prior Period Adjustments		–	–	(4,804)
Gross Programme Budget		244,240	236,503	–
Income allowable against the Programme Budget		(27,175)	(27,499)	–
Net outturn against final Programme/Administration Budget		217,065	209,004	167,284

Note

In previous years the majority of the total ONS budget was administration expenditure. As a result expenditure of the latest settlement all of the UK Statistics Authority's resource costs have been reclassified as programme.

5. Reconciliation of Resources to Cash Requirement

For the period ended 31 March 2009

	Note	Estimate	Outturn	Net total Outturn compared with estimate: saving / (excess)
		£000	£000	£000
<i>Resource Outturn</i>	3	217,065	209,328	7,737

Total	107,954	103,465	4,489	105,208
Less recoveries in respect of outward secondments	(147)	(147)	–	(272)
<i>Total net costs</i>	107,807	103,318	4,489	104,936

Pensions

The Principal Civil Service Pension Schemes (PCSPS) is an unfunded multi-employer defined benefit schemes, but the Authority is unable to identify its share of the underlying assets and liabilities. A full actuarial valuation was carried out 31 March 2007. Details can be found in the resource accounts of the Cabinet Office: Civil Superannuation (www.civilservice-pensions.gov.uk).

For 2008/09, employers' contributions of £14,503,018 were payable to the PCSPS (2007/08: £16,647,834) at one of four rates in the range of 17.1 to 25.5 per cent (2007/08: 17.1 to 25.5 per cent) of pensionable pay, based on salary bands. The scheme's Actuary reviews contributions every four years following a full scheme valuation. The contribution rates reflect the benefits as they are accrued, not when the costs are actually incurred, and reflect past experience of the scheme.

Employees can opt for a partnership pension account, a stakeholder pension with an employer contribution. Employers' contributions of £156,298 (2007/08 £203,360) were paid to one or more of a panel of three appointed stakeholder pension providers. Employer contributions are age-related and range from 3 to 12.5 per cent (2007/08: 3 to 12.5 per cent) of pensionable pay. In addition, employer contributions of £11,381 (0.8 per cent; 2007/08: £14,443, 0.8 per cent) of pensionable pay were payable to PCSPS to cover the cost of future provision of lump sum benefits to PCSPS to cover the cost of future provision of lump sum benefits on death in service and ill health retirement of these employees. Contributions due to the partnership pension providers at the balance sheet date were £16,292 (2007/08: £18,570). Contributions prepaid at that date were nil.

8 persons (2007/08: 1 person) retired early on ill-health grounds; the total additional accrued pension liabilities in the year amounted to £0 (2007/08: £0). These costs are centrally funded by the Civil Service Vote managed by the PPPA.

The average number of whole-time equivalent persons employed during the year was as follows

8(b) Staff Numbers

	2008/09			2007/08 (re-stated)
	Total FTE	Permanently employed FTE	Others FTE	Number Total FTE
Total	3,158	3,097	61	3,174

Note

The staff numbers were averaged out on a month by month basis and relate to the number of staff on the payroll each month.

8(c) Capitalised Staff Costs

	2008/09		2007/08 (re-stated)	
	Cost £000	FTEs	Cost £000	FTEs
Computer configurations	16	1	272	3
Odyssey (SMP)	1,064	19	830	16
Total	1,080	20	1,102	19

Notes

In addition to the figures in note 8(a), £1,080,000 (2007/08 £1,102,000) of salary costs have been charged to capital and are not included in the Operating Cost Statement.

An analysis by capital project is provided in note 8c.

Recoveries of £147,000 (2007/08: £272,000) in respect of outward secondments are shown as administration income shown in note 10.

9. Programme Costs

For the period ended 31 March 2009

	2008/09		2007/08 (re-stated)
	£000	£000	£000
Rentals under Operating Leases			
Hire of plant and machines	282		294
Other operating leases	2,581	2,863	7,310
Non-cash items			
Depreciation	12,945		20,308
Downward Revaluation	690		698
Loss on disposal of fixed assets	149		137
Write off of aged debtors and credit notes	574		210

Telecommunications		2,382	1,710
		128,549	86,855

Note

In previous years ONS expenditure was classified as administration expenditure, as a result of the latest settlement the UK Statistics Authority's resource costs have been reclassified as programme in 2008/09.

The exchange rate gains are attributable to £78,000 currency gains arising from the year end revaluation and £28,000 from sales activities.

In addition to the standard audit work carried out by the National Audit Office a small amount of work was carried out to support claims made from Eurostat at a cost of £10,000 which has been included in miscellaneous fees.

The cost of the annual audit of the Resource Accounts by the National Audit Office is £65,000 with an additional charge of £10,000 for statutory audit work covering the implementation of FRS 25, 26 and 29 and the future implementation of International Accounting Standards.

10. Income

For the period ending 31 March 2009

	2008/09	2007/08 (re-stated)
	£000	£000
Administration income	2,164	3,487
Sales of statistical data	11,941	8,930
Provision of social surveys	12,673	11,516

Net book value at 31 March 2009	48,725	31,391	1,445	–	518	5,299	87,378

Note

Computer configurations transferred in year from assets under construction were reclassified as refurbishment.

Included in the £1,652,000 of additions are capital creditors amounting to £157,000. The capital creditors brought forward from 2007/08 amounted to £151,000

The properties at Titchfield, Christchurch and Newport were professionally valued as at 1 April 2005 by Debenham Tie Leung, an external valuer, qualified to undertake these valuations. The valuations were prepared in accordance with the appropriate sections of the Practice Statements (PS) and the United Kingdom Practice Statements (UKPS) contained within the RICS Appraisal and Valuation Standards.

As a result of the decision to transfer part of Information Management activities to FUJITSU under the Flex programme a number of computer assets will be replaced during 2009/10.

11(b) Assets Under Construction

For the period ending 31 March 2009

	Computer configurations	Building refurbishments	I-Dissemination projects	NeSS projects	Total
	£000	£000	£000	£000	£000
Opening balance at 1 April 2008 (restated)	412	723	1,777	2,661	5,573
In year expenditure	6,888	3,536	3,488	–	13,912

Balance at 31 March 2009	19,442	9,618	1,504	–	693	957	74	32,288

Notes

Early Departure Costs

The Department meets the additional costs of benefits beyond the normal PCSPS benefits in respect of employees who retire early by paying the required amounts annually to the PCSPS over the period between early departure and the normal retirement date. The Department provides for this in full when the early retirement programme becomes binding on the Department by establishing a provision for the estimated payments.

In 2006/07 it was announced that staff numbers in London would reduce to about 90 by the end of 2009/10, and a provision has been made for early retirement of those staff allowing for those who leave by other means, such as transfer, relocation or resignation.

The increase in the provision reflects a revision to the costs of those expected to leave in future years, and plans to reduce staff further in London after March 2010.

Drummond Gate Onerous Contract

As part of the decision to relocate all remaining London staff to Myddelton Street, Drummond Gate was vacated in June 2008. Although the property is being actively marketed and discussions are taking place with a number of potential tenants, no contracts have yet been agreed and therefore a provision has been created to recognise the costs that will be incurred in 2009/10 whilst the marketing continues.

Lancaster Court Onerous Contract

The Office leases buildings at Lancaster Court in Titchfield that are surplus to its requirements, and had sub-let those to a third party who have terminated the sub-lease.

Due to the depressed state of the property market it is anticipated that we will not be able to find a tenant for the short time remaining on the lease and this provision recognises the cost until the end of the lease in June 2014.

Bessborough Rent

In June 2006 ONS disposed of the Bessborough and Rampayne annexes to its Drummond Gate Office in London as reduced staff numbers had led to a need for less office accommodation. As part of the agreement the tenant was allowed a rent free period.

Retention Allowance

As a result of the Lyons and Gershon reports, a provision was created to pay retention allowances in 2008/09 to key London staff to maintain business continuity during the relocation.

Relocation Costs

As a result of the Lyons and Gershon reports, decisions were taken to relocate a number of staff from Titchfield and London. This provision represents an estimate of the costs outstanding from 2007/08 and costs expected to be incurred, and now includes additions to reflect the extension of plans to 2010/11

Myddleton Street Dilapidations

The former Family Records Centre in Myddleton Street has space for over 300 staff and in the longer term is too large based on the staff projections.

We therefore plan to give notice to leave at the next lease break, when the UK Statistics Authority would expect to have to pay a sum in respect of dilapidations.

Other

Other provisions include:

Employment Tribunals

There are a small number of outstanding Employment Tribunal cases which will be resolved in 2009/10

Excess Fares

As part of the move to Myddleton Street, London staff are entitled to receive payment for a limited period for excess fares incurred travelling to their new place of work.

Fixed Term Appointment Contract Termination Costs

The closing balance at 31 March 2008 included £140,000 which was transferred to the Identity and Passport Service at the 1 April 2008.

17. General Fund

For the period ended 31 March 2009

21. Capital Commitments

For the period ended 31 March 2009

	2008/09	2007/08
	£000	£000
Contracted building refurbishments commitments	179	222
Contracted IT commitments	2,070	–
as at the 31 March 2009 for which no provision has been made	2,249	222

22. Commitments Under Leases

For the period ending 31 March 2009

Commitments under operating leases to pay rentals during the year following the year of these accounts are given in the table below, analysed according to the period in which the lease expires.

	2008/09		2007/08	
	Land and Buildings	Other	Land and Buildings	Other
	£000	£000	£000	£000
1 year	140	282	88	65
2 – 5 years	26	–	1,609	224
after 5 years	5,918	–	4,410	–
	6,084	282	6,107	289

23. Other Financial Commitments

For the period ended 31 March 2009

The Department has entered into non-cancellable contracts (which are not leases or PFI contracts), for full Information Management Operational Support & Infrastructure. The payments to which the Department is committed during 2008/09

	2008/09
	£000
Expiry within 1 year	27,358
Expiry within 2 – 5 years	162,263
Expiry thereafter	–
	<u>189,621</u>

24. Financial Instruments

For the period ending 31 March 2009

Risk Management Objectives and Policies

The cash requirements of the Authority are met through the Estimates process, financial instruments play a more limited role in creating risk than would apply to a non-public sector body of a similar size. The majority of financial instruments relate to contracts to buy non-financial items in line with the Department's expected purchase and usage requirements and the Department is therefore exposed to little credit, liquidity or market risk.

Currency Risk

The Authority conducts a small amount of transactions in foreign currency it is not deemed cost effective to hedge against foreign exchange risk

Currency Risk

	2008/09		2007/08	
	Non-interest bearing financial assets	Non-interest bearing financial liabilities	Non-interest bearing financial assets	Non-interest bearing financial liabilities
	£000	£000	£000	£000
Euro	756	(57)	628	(26)
Gross financial assets/liabilities	<u>756</u>	<u>(57)</u>	<u>628</u>	<u>(26)</u>

Credit Risk

Long-term debtors are fully recoverable and therefore no material credit risk

Financial Liabilities

The Authority's financial liabilities are interest free, and most mature within one year or less, or on demand, except for certain provisions and their maturity profile described below.

	Early Departure & Excess Fares	Relocation	Drummond Gate, Lancaster Court Onerous Contracts & Myddleton Street Dilapidations	Bessborough	Employment Tribunal	Total
	£000	£000	£000	£000	£000	£000
a) in one year or less	5,858	623	6,869	1,343	20	14,713
b) in more than one year, but not more than two years	5,517	70	1,401	161	–	7,149
c) in more than two years, but not more than five years; and	4,815	–	1,209	–	–	6,024
d) in more than five years	3,306	–	1,096	–	–	4,402

All material financial liabilities are carried at their fair value and are denominated in sterling.

Financial Assets

The Authority's financial assets comprise its long-term debtors as set out in note 13 and cash at bank and in hand as set out in note 14. All financial assets are non-interest bearing. Cash at bank and in hand is available on demand. Long-term debtors are expected to be realised in two to ten years. All financial assets are carried at their fair value and are denominated in sterling.

25. Contingent Liabilities Disclosed Under FRS12

For the period ending 31 March 2009

There is one outstanding tribunal case against the UK Statistics Authority for which a contingent liability of £49,000 exists.

26. Special Payments and Losses

For the period ending 31 March 2009

The Authority has paid out £26,000 ex-gratia payments to employees in keeping with the Civil Service Management code during 2008/09 (2007/08: £126,000).

27. Related Party Transactions

For the period ending 31 March 2009

The UK Statistics Authority has had various material transactions with other government departments and other central government bodies. Most of these transactions have been with HM Treasury, the Department for Communities and Local Government (CLG), the Department for Business, Innovation and Skills, Department for Children, Schools and Families and Department of Work and Pensions.

No board member, key manager or other related parties has undertaken any material transactions with the Authority during the year.
